

PROFESSIONAL SERVICES FOR LOS ANGELES AIR FORCE BASE IN CALIFORNIA

OBJECTIVE Los Angeles Air Force Base needed a contractor to perform non-core IT and organizational services on the base. The contractor needed to provide support to the communications squadron, which handles all IT network and help-desk support across the vast campus.

SOLUTION VectorUSA partnered with Aurora Enterprises to perform non-core IT and organizational services including IT inventory audits, database expansion and migration, printer management, telephone control management, communication security, IT planning and data base maintenance, asset management, equipment custodian, and information assurance management.
